How to Share to Car

MyT | Connected Services

Share to Car

Using Share to Car, you can plan your journey in advance by searching for directions on your smartphone , in the comfort of your own home.

These directions can then be transferred to your car using the following, simple process.

Before you use Share to Car

Your multimedia device and your car need to be linked in the app.

Verify that the Multimedia device ID appears in the app (wheel icon > settings > car tab > Multimedia section).

If it does not appear then add it, following the in-app instructions.

Using Share to Car: Overview

Step 1 – From the homepage of the app Click on “Services”.

Step 2 – Click on “Share to Car”

Step 3 – Click on “Where to” to input your destination.

Step 4 – Enter your destination or first stopover.

Step 5 – Click on “+” to add further intermediate stops.

Step 6 – Enter the address of your destination.

Step 7 – When route planning is ready, click on “Send to Car”.

Step 8 – A confirmation screen will be shown.

Using Share to Car: Overview
